

# Medior UX/UI Designer

**Gandalf Van Dyck**

Eightytwenty.nl

*Hey there! I am Gandalf, a UX/UI designer with five years of experience working @ ANWB.*

I love making websites and apps super easy and fun to use. I'm all about mixing creativity with practical solutions to make digital interfaces that people really like. The goal is to create designs that just (intuitively) work, and I'm all about making the internet a friendlier and more enjoyable place.

**And yes, the name originates from that wizard dude...**

*Some of my hours were obviously spent at school, you know, learning the ropes as they say!*

**COMMUNICATION MULTIMEDIA DESIGN**

De Haagse Hogeschool / September 2014 - September 2019

**DIGITAL MEDIA DESIGN**

Grafisch Lyceum Rotterdam / September 2010 - September 2014

**SIGN & DTP**

Grafisch Lyceum Rotterdam / September 2008 - September 2010

**VMBO ECONOMIE ISP: HANDEL & ADMINISTRATIE**

Hofstad Heldring / September 2003 - September 2007

## So after graduating I found a home at ANWB, but before that I also did some work for other companies, heres a list!

### 1 ANWB

UX/UI & Front-end development  
September 2018 - **Currently working here**

Working on Journeys, Design Systems, specific components for Apps or websites.  
I specifically enjoy working on the Design System.

### 2 INRADA GROUP

UX/UI Design & WordPress  
2 Years & 4 months

Working on building the brand, brainstorming with stakeholders, producing mockups and Wordpress templates.  
Definitely enjoyed working directly with CEO/CFO, reduce time spent in/on meetings and improve asset production.

### 3 OGD ICT-DIENSTEN

Graphic Design  
2 Years

Supportive role as Designer for posters, website (mockups) and various offline/online media.  
Enjoyed learning the ropes from the Lead Brand designer!

### 4 SEATECH ENERGY

Brand Design/Design System  
A few months (study)

Thesis/internship. My goal was to realize a clear brand message, fitting type, colors and website designs.  
Supported by market research, interviews, benchmarks and validation (A/B) testing.

*So I have some experience, I have a amazing job... But who knows what the future holds! I'm open to new opportunities, hit me up to schedule a meeting!*
